# CONDITION OF THE MARKETS

Opening Strength in the Chicago Market Soon Dissipated by Weaker Cables.

Quarter Million Bushels of Wheat Said to Be Lying in Vessels on the English Coast, with No Bidders-Pork Acts in Sympathy.

### MONEY, STOCKS AND BONDS.

Heavy Engagement of Gold for Export for To-Day Used as a Club by the Bears. NEW YORK, June 19 .- Money on call was easy, ranging from 1 to 212 per cent., the last loan being made at 2, closing offered at 2. Prime mercantile paper, 512@7 per cent. Sterling exchange was quiet but steady at \$4.85% for sixty-day bills and \$4.88% for

demand. The total sales of stock to-day were 147,037

shares, including the following: Atchison, 9,500; Louisville & Nashville, 23,600; Missouri Pacific, 3,100; St. Paul, 38,775; Union Pacific, 4,360.

For several days there have been persistent reiteration of rumors that gold was likely to go out this week, and to these assertions the tendency in exchange gave some probability, but the reduction in the Bank of England rate and the generally better feeling and conditions on the other side were felt to be against such a movement, and while there was the usual hesitancy about buying, no new ventures were started. To-day, however, the street was started. To-day, however, the street was treated to a surprise in the taking of over \$2,300,000 for export by to-morrow's steamers, and stood the surprise very well. The fact was made, as was to be expected, the opportunity for a "bear" attack upon the leading speculative stocks, but there was no "long" stock brought upon the market, and while the lack of support rendered the marking off of prices a comparatively easy matter, the movement was marked the trading after each drive. The movement is felt to be only the remains of the one gone before, and while the possibil-ity and even probability of further exports from time to time are acknowledged, no apprehension as to the state of the money market is felt from the consequences of such a movement, while the favorable conditions both at home and abroad are continually kept in mind and the usual conservatism is shown on the part of holders. The strength in silver was also an influential factor in sustaining prices, the revival of speculative interest in the metal taking some of the edge off of the loss of the gold. The stock market, however, was even narrower than usual of late, and outside of a half dozen stocks, which now monopolize attention, the movements during the day were entirely insignificant.
Among the leaders, however, losses of from 34 to 114 per cent. were sustained. These stocks included St. Paul, Chicago Gas, Louisville, Atchion, New England, Rock Island, Wabash preferred and Wheeling & Lake Erie preferred The market showed the effect of the covering of the "shorts' put out earlier in the day in the final dealings, and a fractional rally took place, which closed the market firm at the im-

ver is up 128.

Railroad bonds were a little more active to-day, the sales of all issues reaching \$660,-000, and the increased interest was seen in the firmer tone presented, and which pre-vented any material change in prices against the influence of the decline in the share list. The only movement of importance was the rise in the Norfolk & Western fives to 93, from 8812. The rest of the list was quiet and held fairly steady through-

provement. The final changes are generally

small losses, but Jersey Central and New

England are off I per cent. each, while Sil-

Government bonds have been dull and steady and State bonds have been the same.

LONDON, June 19 .- Bar silver, 45d per ounce.

# TRADING AT CHICAGO.

Rain in the Winter Wheat Belt Said to Have Done Little Damage. CHICAGO, June 19 .- Wheat opened with an appearance of strength, first sales of July being made at 94@944c, against 98120 | exceptionally hot weather at many points at the close yesterday. The strength was | has induced something like midsummer only apparent, however, and was due to the bidding of a few nervous speculators who overestimated the importance of the wet weather in the winter wheat beit, where the harvest is in progress. All of the copditions were against them. Cable market reports showed lower prices for both spot and futures at Liverpeol and for cargoes for prompt shipment at London. A series of private cables from the prominent wheat market centers of Europe said that French importers had already bought more grain than the situation warranted, which seemed to account for the sharp drop in prices yesterday. It is said that 260,000 oushels were lying in halls on the English coast for which there were no bidders. Furthermore the weather map showed but ittle rain in Kansas, indicating that the harvest would soon be resumed. The break in stocks, instituted upon the continued bold exports, assisted in the decline. The local feeling was bearish and the selling pressure quickly overwhelmed the little oterie of buyers. Within five minutes of the opening July sold at 9314c. At this point came reports of serious damage to the crop in Kansas by floods and heavy rains. s good inquiry for cash wheat here chiefly for direct export, and large export clear-ances from the seaboard. A French cable also said that the Chamber of Deputies had agreed to the measure of the reduction of the duty on cereals, fixing the date at July 10. As this was a compromise between the Chamber's wish for an immediate reduction and the action of the Senate, fixing the time at Aug. 1, it was thought it would pass the Senate. S. V. White & Co., Geo. Smith and Logan began to buy, and the sellers having been pretty thoroughly bailed out prices quickly began to react. Early "shorts" commenced to cover, and there was considerable investment buying. Cottrell, it was thought, bought at least a million bushels, and the calping crowd seemed inclined to the buying side. The result was a change in seniment and an advance, with various minor fluctuations to 9434c. Then the market became weak on free offerings, and lower and weak on English cables and the decline reported at Paris, Berlin and Antwerp, sell-

ing off to 941sc, reacting to 941ge and closing at that. Corn showed affittle strength for the first minute and July sold at 56@564sc. but everybody seemed to have selling orders and buyers were holding off. The result was a surprising weakness and a rapid decline. July dropped to 5434c in less than ten minutes after the opening. It followed wheat to some extent, but the probability of warmer and clearing weather was also a weak factor. On the breaking, good buying commenced, "shorts" covered freely, investment buying was generous and wheat selling up, corn followed. The moderate receipts for to-morrow were favorable and Pardridge and Cudaby covered a good deal, and there was an irregular advance to 561ge. Then Pardridge and Cud-shy turned "short" sellers, breaking the price to 557se, from which there was a re-

covery to 56 4c at the close.

865sc, broke to 357sc, reacted to 364sc, and closed at 36c. Provisions opened firm. September pork selling at \$10.60, but fell later to \$10.50. When corn and wheat advanced it sold to \$10.70, dropped to \$10.000, and closed at \$10.600, a gain of 10c over yesterday.

Lard and ribs gained .10c over yesterday.

The leading futures ranged as follows:

DUN & CO.'S WEEKLY REVIEW.

Trade Decidedly Unsettled, Caused by Recent Failures and Nervous Money Market. NEW YORK, June 19 .- R. G. Dun & Co.'s weekly review of trade says: While crop reports continue remarkably favorable, the volume of business at present transacted is not as large as it has been in other years at this time. This is in part because duliness, but the more important cause, undoubtedly, is that trade in many branches has been waiting for certainty of improvement and definite orders before undertaking new risks. There is also some hesitation owing to recent failures, particularly in Philadelphia. Credits have been more cautionsly given in the woolen and the boot and shoe trades, and this has lessened the volume of transactions. Hence it is encouraging to find that there is actual improvement in the demand for consumption in several of the more important trades and

that manufacturers already begin to feel At Boston more disposition to buy is noticed in the leather trade, and steady orders for boots and shoes, though small give encouragement. At Philadelphia the wool trade is waiting, holders asking more than buyers wish to give, but the leather trade is healthy, with better prospects. In building much depression results from re-cent failures. Pittsburg notes better demand for manufactured iron, and Cleveland more demand for pig. At Cincinnati trade is picking up, and at Detroit increased in some lines, wool moving at 2 or 3 cents lower prices than a year ago. Chicago notes wool receipts double last year's, with an increase of one-half in wheat and dressed beef, and moderate increase in hides, but decrease in flour, corn and lard. Sales of dry goods and shoes continue to exceed last year's. St. Louis notes some change by frequent rains, and while lumber, building, hardware, paint and oil trades are especially active, the general aggregate is rather less than a year ago, though of fair volume. It is important

reports mention rain and brighter crop Crop prospects strengthen confidence at Kansas City, and business is improved at Louisville, decidedly at Montgomery and slightly at New Orleans. Trade is small at Memphis, quiet at Little Rock, dull at Nashville, better than usual for the season at Atlanta, and much better than last year at Jacksonville. Reports from all quarters indicate little complaint as to collections. Regarding money, they show almost every-where an ample supply for legitimate and safe business, but it is frequently mentioned that there is no supply for speculation, and at St. Louis the market is stiffer at 7 and 8 per cent.; at Kansas City firm at 8 to 10 per cent.; at Detroit strong at 7; rather stringent at Cleveland, tight at Little Rock and Atlanta, close at Nashville, and in good demand at firm rates at New Orleans. From

that all Northwestern and Southwestern

all other points reports indicate compara-It is another hopeful indication that the demand for napufactured iron and steel improves. For structural iron there is a rush of orders, though bar iron is only fairly active, but plates are in good demand. The stagnation produced in rails by the combination to hold up prices is shown by the official report that sales to June 1, this year, were but 725, 376 tons, against 1,086,000 tons at the same date last year. and deliveries but 337,000 tons against 598,-000 tons last year. The wool market at New York shows improvement in larger de-Oats started at 3612c to 37c for July, mand by manufacturers. In woolen goods broke off in sympathy with corn, and soon there is a large blume of business, and

gain on the consuming demand is felt. The orders for foreign goods are said to be The orders for foreign goods are said to be 50 per cent less than a year ago, but the domestic trade gains. In hides large receipts at the West have broken the combination to lift prices, and, after rising from 534 to 7c in March, sell at 534c again. Coal is very dull, copper and lead unchanged and tin a shade lower. Speculation in breadstuffs has been more active, and wheat is about 1c higher in spite of the prospect that the yield will be the largest ever known. Corn is weak and lower and oats 412c lower. Cotton has fallen 3/16c, and the price is lowest since 1854, receipts and the price is lowest since 1854, receipts continuing heavy. Coffee is 4c lower and oil 14c lower, but pork products a shade

The business failures occurring throughout the country during the past seven days number 253, as compared with a total of 244 last week. For the corresponding week of last year the figures were 199.

### TRADE IN GENERAL

# INDIANAPOLIS MARKETS.

The Local Situation Presents No New Feat-

ures-Few Fluctuations in Values. INDIANAPOLIS, June 19 .- On the wholesale streets trade to-day was rather slow. Prospects of rain doubtless kept many of the country merchants at home. The traveling salesman, however, who came in on the evening trains, brought in a large number of orders, and state that the retail merchants are very sauguine that business is to be good this fall and winter. In prices to-day there were no important fluctuations. Both sugars and coffees are easy at quotations, and further declines would not be a surprise. In the dry-goods market, on several lines, prices carry an easy tone. Druggists, hardware men, dealers in tinners' supplies report trade as good for June. with firm prices ruling. The leather and the hide markets carry an easy tone at un-changed prices. Poultry, eggs and choice butter are firm at quotations. Old Irish potatoes are very scarce and higher. New potatoes more plenty, and prices easing off a little. Fruits and vegetables are in good supply. Prices are governed largely by the daily receipts, and it is quite difficult to give correct quotations. Fruits and vegetables of home production are now so abundant that it cuts down the demand for stuff shipped in here.

The local market is dull, and prices easy on all cereals. Judging from the bidding the future market is so uncertain that dealers and shippers do not care to get into deep water. Track bids to-day ruled as

Paying Dearly for Colonial Aggrandizement,

300.00

Philadelphia Record. Following close upon the story of the massacre of a French expedition to the Sahara country, in Africa, comes the news of the terrible experiences of a party of ex-plorers under Dr. Zintgraff, who sought to enter the unknown lands behind the German possessions on the Cameroons river. On his first expedition he was driven back by the natives with much loss. He then raised a stronger expedition and made a second attempt, which has ended even more disastrously. The leaders were killed to a man, and the members of the party who were taken prisoners committed suicide in order to escape torture. Germany is paying dearly for her dreams of colonial aggran-

No Alaska Chilliness Between Them. hiladelphia Inquirer

A large part of the telegraphic corre spondence about the Bering-sea agree-ment was with Secretary Blaine at Bar Harbor. He conducted the negotiations and the agreement was not signed until Mr. Blaine and the President were both satstied with it. That doesn't look as if there was an Alaska chilliness between these two great Republicans.

It is not generally known that there is one measurement in cattle which is a key to all other measurements. This is the length of the head, which in a well-propor-tioned animal is the same as each of the following: The distance between the hips from center to center, from center of hip bone to edge of flank, from center of hip bone to center of rump bone, from point of hock to the ground and from dew lap to the ground. A well-grown short-horn three-year-old is, as a rule, about twentytwo inches in these respective measure-

Is not an experiment: it has been tested and its enormous sale is due solely to its merit. It is made on honor, and good housekeepers say SANTA CLAUS SOAP "is a necessity." Don't let your dealer give you some other kind, if he hasn't Santa Claus, but insist on having only SANTA CLAUS SOAP. N. K. PAIRBANK & CO., Mfrs., Chicago, Ill.
